Clin. Biomech. 1993; **8**: 333–336

CLINICAL BIOMECHANICS

REVIEWER ACKNOWLEDGEMENT

Scientific publishing relies heavily on the enthusiasm and commitment of a large number of individuals, in particular the fellow scientists who give freely of their time and advice to ensure a standard of content and presentation for peer-reviewed journals. The Editors and Publishers of *Clinical Biomechanics* would like to take this opportunity of thanking the members of the Editorial Board and the following advisors for their invaluable help during 1993.

R Allen, P Cavanagh, R Cooper, A Cutts, P Dolan, J Egan, A Jennings, G Johnson, P McNair, M Morlock, S Pheasant, R Rozendal, B Seedhom, J Smeathers, C Snijders and S West.

INDEX: VOLUME 8 1993

SUBJECT INDEX

3D
  activities of daily living, elbow joint, motion analysis, optoelectric, 322
3D measurement
  whole-body strength, direction of exertion, manual strength, protocol, 127
3D model
  ankle, motion analysis, postural control, 307
3D PSD
  asymmetry, biomechanics instrumentation, human strength TAFS, triaxial measurement, 120
accelerometers
  vibration, seating, posture, 5
achilles tendon force
  ankle joint moment, vertical jump, cinematography, 25
ACL reconstruction
  surgical technique, kinematics, knee surgery, prosthetic ligament, 243
activities of daily living
  upper extremity, motion analysis, optoelectric, elbow joint, 315
  elbow joint, motion analysis, optoelectric, 3D, 322
ageing
  cancellous bone, density, morphometry, osteoporosis, 262
amputation
  strain gauge, gait, walking aid, elderly, 73
ankle
  biomechanics, gait, hip, knee, 59
  motion analysis, 3D model, postural control, 307
ankle joint moment
  achilles tendon force, vertical jump, cinematography, 25
anterior cruciate ligament
  coactivation, electromyography, joint stability, 215
armrest
  hip, knee, joint load, rising, 95
articular cartilage
  static and impact loading, photoelasticity, subchondral shear stress reduction, 102
asymmetry
  3D PSD, biomechanics instrumentation, human strength TAFS, triaxial measurement, 120
balance
  elderly, stepping, reaction time, weight transfer time, 179
bending moment
  lumbar spine, *in vivo*, mobility, 185
biomechanical model
  shoulder mechanism, wheelchair propulsion, coordination, scapula, 81
biomechanics
  diabetes, rat, cortical bone, morphology, 49
  ankle, gait, hip, knee, 59
  gait, walkings aids, modeling, 41
  CT osteoabsorptiometry, hip-joint mechanics, subchondral mineralization, functional adaptation, 66
  mechanical power, cane-assisted walking, moments, 37
  gait analysis, hip arthrodesis, kinematic, kinetic, 142
  lumbar spine, manipulation, stiffness, 115
  spine, external forces, chiropractic, manipulation, 210
  diet, bone-ligament junction, histology, rat, 163
  quadriceps femoris, femoral nerve, gait, 147
  fast bowling, magnetic resonance imagery, lumbar disc degeneration, injury, 227
  sacroiliac joint, peripartum pain, sacrotuberous ligament, gluteus maximus muscle, 285
biomechanics instrumentation
  3D PSD, asymmetry, human strength TAFS, triaxial measurement, 120
biorheology
  intervertebral disc, nucleotomy, 250
biuomechanics
  pelvic shape, joint force, osteoarthrosis, 224
bone-ligament junction
  diet, biomechanics, histology, rat, 163
cadaveric
  muscle physiological cross-sectional area, 156
cancellous bone
  ageing, density, morphometry, osteoporosis, 262
cane-assisted walking
  mechanical power, biomechanics, moments, 37
cerclage wiring
  femur, prosthesis, fracture, fixation, 274
cervical spine
  motion, uncinate process, intervertebral disc, zygapophyseal, 193
chiropody
  goniometry, subtalar, range of motion, podiatry, 13
chiropractic
  biomechanics, spine, external forces, manipulation, 210
cinematography
  achilles tendon force, ankle joint moment, vertical jump, 25
coactivation
  anterior cruciate ligament, electromyography, joint stability, 215
coordination
  shoulder mechanism, wheelchair propulsion, scapula, biomechanical model, 81
cortical bone
  diabetes, rat, biomechanics, morphology, 49
CT osteoabsorptiometry
  hip-joint mechanics, subchondral mineralization, biomechanics, functional adaptation, 66
deformation assessment
  orthotics, oaraokegua, gait analysis, 255
density
  ageing, cancellous bone, morphometry, osteoporosis, 262
diabetes
  rat, cortical bone, biomechanics, morphology, 49
diet
  bone–ligament junction, biomechanics, histology, rat, 163
direction of exertion
  whole-body strength, manual strength, protocol, three-dimensional measurement, 127
dynamometry
  isokinetic, knee extensors, 91
dynamometry
  low back, maximum effort, preferred effort, prediction, 203
ECG
  EMG, surface, filtering, torso, 44
effort rating
  lifting capacity, strength testing, low-back pain, isoinertial, 20
elbow joint
  upper extremity, motion analysis, optoelectric, activities of daily living, 315
  activities of daily living, motion analysis, optoelectric, 3D, 322
elderly
  strain gauge, gait, amputation, walking aid, 73
  balance, stepping, reaction time, weight transfer time, 179
electromyography
  anterior cruciate ligament, coactivation, joint stability, 215
EMG
  ECG, surface, filtering, torso, 44
external forces
  biomechanics, spine, chiropractic, manipulation, 210
fast bowling
  biomechanics, magnetic resonance imagery, lumbar disc degeneration, injury, 227
femoral nerve
  quadriceps femoris, gait, biomechanics, 147

femur
cerclage wiring, prosthesis, fracture, fixation, 274
filtering
EMG, ECG, surface, torso, 44
fixation
cerclage wiring, femur, prosthesis, fracture, 274
force
hallux valgus, hallux rigidus, moment, knee, 135
fracture
cerclage wiring, femur, prosthesis, fixation, 274
functional adaptation
CT osteoabsorptiometry, hip-joint mechanics, subchondral mineralization, biomechanics, 66
gait
ankle, biomechanics, hip, knee, 59
reflexes, *h*-max, head position, neural interaction, 109
biomechanics, walkings aids, modeling, 41
strain gauge, amputation, walking aid, elderly, 73
quadriceps femoris, femoral nerve, biomechanics, 147
gait analysis
biomechanics, hip arthrodesis, kinematic, kinetic, 142
orthotics, oaraokegua, deformation assessment, 255
gluteus maximus muscle
biomechanics, sacroiliac joint, peripartum pain, sacrotuberous ligament, 285
goniometry
subtalar, range of motion, chiropody, podiatry, 13
h-max
reflexes, gait, head position, neural interaction, 109
hallux rigidus
hallux valgus, moment, force, knee, 135
hallux valgus
hallux rigidus, moment, force, knee, 135
head position
reflexes, *h*-max, gait, neural interaction, 109
hip
ankle, biomechanics, gait, knee, 59
knee, joint load, armrest, rising, 95
hip arthrodesis
biomechanics, gait analysis, kinematic, kinetic, 142
hip-joint mechanics
CT osteoabsorptiometry, subchondral mineralization, biomechanics, functional adaptation, 66
histology
diet, bone–ligament junction, biomechanics, rat, 163
human strength TAFS
3D PSD, asymmetry, biomechanics instrumentation, triaxial measurement, 120
in vivo
bending moment, lumbar spine, mobility, 185
injury
fast bowling, biomechanics, magnetic resonance imagery, lumbar disc degeneration, 227
intervertebral disc
cervical spine, motion, uncinate process, zygapophyseal, 193
nucleotomy, biorheology, 250
isoinertial
lifting capacity, strength testing, effort rating, low-back pain, 20
isoinertial dynamometer
lagrange polynomial interpolator, movement patterns, trunk strength, low-back pain, 220
isokinetic
knee extensors, dynamometry, 91
isometric
muscular strength, shoulder, sitting posture, 235
isotrak
shoulder, scapula, movement, upper limb, 269
joint force
pelvic shape, biomechanics, osteoarthrosis, 224
joint load
hip, knee, armrest, rising, 95
joint stability
anterior cruciate ligament, coactivation, electromyography, 215
kinematic
biomechanics, gait analysis, hip arthrodesis, kinetic, 142
kinematics
ACL reconstruction, surgical technique, knee surgery, prosthetic ligament, 243
kinetic
biomechanics, gait analysis, hip arthrodesis, kinematic, 142
knee
ankle, biomechanics, gait, hip, 59
hip, joint load, armrest, rising, 95
hallux valgus, hallux rigidus, moment, force, 135
laxity, varus, valgus, 329
knee extensors
isokinetic, dynamometry, 91
knee surgery
ACL reconstruction, surgical technique, kinematics, prosthetic ligament, 243
lagrange polynomial interpolator
movement patterns, isoinertial dynamometer, trunk strength, low-back pain, 220
laxity
knee, varus, valgus, 329
lifting capacity
strength testing, effort rating, low-back pain, isoinertial, 20
low back
dynamometry, maximum effort, preferred effort, prediction, 203
low-back pain
lifting capacity, strength testing, effort rating, isoinertial, 20
lagrange polynomial interpolator, movement patterns, isoinertial dynamometer, trunk strength, 220
lumbar disc degeneration
fast bowling, biomechanics, magnetic resonance imagery, injury, 227
lumbar spine
biomechanics, manipulation, stiffness, 115
bending moment, *in vivo*, mobility, 185
magnetic resonance imagery
fast bowling, biomechanics, lumbar disc degeneration, injury, 227
manipulation
lumbar spine, biomechanics, stiffness, 115
biomechanics, spine, external forces, chiropractic, 210
thoracic spine, posteroanterior stiffness, physiotherapy, 302
manual strength
whole-body strength, direction of exertion, protocol, 3D measurement, 127
maximum effort
low back, dynamometry, preferred effort, prediction, 203
mechanical power
biomechanics, cane-assisted walking, moments, 37
mobility
bending moment, lumbar spine, *in vivo*, 185
modeling
gait, biomechanics, walkings aids, 41
moment
hallux valgus, hallux rigidus, force, knee, 135
moments
mechanical power, biomechanics, cane-assisted walking, 37
morphology
diabetes, rat, cortical bone, biomechanics, 49
morphometry
ageing, cancellous bone, density, osteoporosis, 262
motion
cervical spine, uncinate process, intervertebral disc, zygapophyseal, 193
motion analysis
ankle, 3D model, postural control, 307
upper extremity, optoelectric, activities of daily living, elbow joint, 315
activities of daily living, elbow joint, optoelectric, 3D, 322
movement
shoulder, scapula, isotrak, upper limb, 269
movement patterns
lagrange polynomial interpolator, isoinertial dynamometer, trunk strength, low-back pain, 220
muscle physiological cross-sectional area
cadaveric, 156
muscular strength
isometric, shoulder, sitting posture, 235
neural interaction
reflexes, *h*-max, gait, head position, 109
nucleotomy
intervertebral disc, biorheology, 250
oaraokegua
orthotics, gait analysis, deformation assessment, 255
optoelectric
upper extremity, motion analysis, activities of daily living, elbow joint, 315
activities of daily living, elbow joint, motion analysis, 3D, 322
orthotics
oaraokegua, gait analysis, deformation assessment, 255
osteoarthrosis
pelvic shape, joint force, biuomechanics, 224
osteoporosis
ageing, cancellous bone, density, morphometry, 262
pelvic shape
joint force, biuomechanics, osteoarthrosis, 224
peripartum pain
biomechanics, sacroiliac joint, sacrotuberous ligament, gluteus maximus muscle, 285
photoelasticity
articular cartilage, static and impact loading, subchondral shear stress reduction, 102
physiotherapy
thoracic spine, manipulation, posteroanterior stiffness, 302
podiatry
goniometry, subtalar, range of motion, chiropody, 13
posteroanterior stiffness
thoracic spine, manipulation, physiotherapy, 302
postural control
ankle, motion analysis, 3D model, 307
posture
vibration, seating, accelerometers, 5
prediction
low back, dynamometry, maximum effort, preferred effort, 203
preferred effort
low back, dynamometry, maximum effort, prediction, 203
prosthesis
cerclage wiring, femur, fracture, fixation, 274
prosthetic ligament
ACL reconstruction, surgical technique, kinematics, knee surgery, 243
protocol
whole-body strength, direction of exertion, manual strength, 3D measurement, 127
quadriceps femoris
femoral nerve, gait, biomechanics, 147
range of motion
goniometry, subtalar, chiropody, podiatry, 13
rat
diabetes, cortical bone, biomechanics, morphology, 49
diet, bone-ligament junction, biomechanics, histology, 163
reaction time
balance, elderly, stepping, weight transfer time, 179
reflexes
h-max, gait, head position, neural interaction, 109
rising
hip, knee, joint load, armrest, 95
sacroiliac joint
biomechanics, peripartum pain, sacrotuberous ligament, gluteus maximus muscle, 285
sacrotuberous ligament
biomechanics, sacroiliac joint, peripartum pain, gluteus maximus muscle, 285

scapula
shoulder mechanism, wheelchair propulsion, coordination, biomechanical model, 81
shoulder, movement, isotrak, upper limb, 269
seating
vibration, accelerometers, posture, 5
shoulder
scapula, movement, isotrak, upper limb, 269
isometric, muscular strength, sitting posture, 235
shoulder mechanism
wheelchair propulsion, coordination, scapula, biomechanical model, 81
sitting posture
isometric, muscular strength, shoulder, 235
spine
biomechanics, external forces, chiropractic, manipulation, 210
static and impact loading
articular cartilage, photoelasticity, subchondral shear stress reduction, 102
stepping
balance, elderly, reaction time, weight transfer time, 179
stiffness
lumbar spine, biomechanics, manipulation, 115
strain gauge
gait, amputation, walking aid, elderly, 73
strength testing
lifting capacity, effort rating, low-back pain, isoinertial, 20
subchondral mineralization
CT osteoabsorptiometry, hip-joint mechanics, biomechanics, functional adaptation, 66
subchondral shear stress reduction
articular cartilage, static and impact loading, photoelasticity, 102
subtalar
goniometry, range of motion, chiropody, podiatry, 13
surface
EMG, ECG, filtering, torso, 44
surgical technique
ACL reconstruction, kinematics, knee surgery, prosthetic ligament, 243
thoracic spine
manipulation, posteroanterior stiffness, physiotherapy, 302
torso
EMG, ECG, surface, filtering, 44
triaxial measurement
3D PSD, asymmetry, biomechanics instrumentation, human strength TAFS, 120
trunk strength
lagrange polynomial interpolator, movement patterns, isoinertial dynamometer, low-back pain, 220
uncinate process
cervical spine, motion, intervertebral disc, zygapophyseal, 193
upper extremity
motion analysis, optoelectric, activities of daily living, elbow joint, 315
